## GARAGE ANCHORING SYSTEMS Models GA1 and GHA2

Please note that when the instant garage or shed is to be sited on soft ground an additional, or alternative method of anchoring may be required.

This can take the form of an additional Auger Securing Set GA1 (already supplied with Clarke instant garages), which can add greater security for exposed, windy locations.

Alternatively the Easy Hook Anchoring System GHA2, can be used to provide greater security on soft ground.

Available from your Clarke dealer.
