75.6L DIGITAL SAFE

MODEL NO: CS1000D

PART NO: 7710122

OPERATION & MAINTENANCE INSTRUCTIONS

UK | CE

DL0323

INTRODUCTION

Thank you for purchasing this CLARKE 75.6L Digital Safe.

Before attempting to operate the safe, it is essential that you read this manual thoroughly and carefully follow all instructions given. In doing so you can look forward to the safe giving you long and satisfactory service.

GUARANTEE

This CLARKE product is guaranteed against faulty manufacture for a period of 12 months from the date of purchase. Please keep your receipt as proof of purchase.

This guarantee is invalid if the product is found to have been abused or tampered with in any way, or not used for the purpose for which it was intended.

Faulty goods should be returned to their place of purchase, no product can be returned to us without prior permission.

This guarantee does not effect your statutory rights.

SPECIFICATION

External Dimensions (DxWxH)	350 x 420 x 600 mm
Weight	24.25 kg
Batteries	4 x AA (1.5V) batteries
Volume	75.6L
Number of Shelves	2
Number of Keys Supplied	2

REPLACEMENT OVERRIDE KEY

A key number has been carved into the face of the lock and the keys. This number must be registered with us in the event you require a replacement key.

Please register your safe on the website listed on page 7. If you fail to register the safe we will not be able to provide you with a replacement key.

We recommend that in addition to registering you remove the label from the safe and fix it to the space on page 7. Please retain this document for future reference.

BEFORE USE

OPENING THE SAFE FOR THE FIRST TIME

1. Remove the small plastic cover (2) on the front panel.
2. Insert the override key into the key hole and turn it counterclockwise, at the same time, turn the doorknob (1) clockwise direction to open the safe.

NOTE: NEVER keep the override keys inside the safe itself.

3. Replace the small plastic cover (2) onto the front panel.

INSTALLING THE SAFE

The safe should be secured vertically to a wall, cupboard shelf or to the floor using the four expansion bolts (supplied).

- There are 4 holes (9mm) on the rear and 4 holes (9mm) on the bottom of the safe for securing to a wall or the floor.

INSTALLING THE BATTERIES

The safe requires 4 x AA (1.5V) batteries.

1. Open the safe.
2. Remove the battery cover plate on the back of the door and install the batteries.
3. Ensure the batteries are installed with the correct polarity.
4. The use of alkaline batteries is recommended.

PROGRAMMING THE CODE

With the safe door open and the batteries installed:

1. Press and release the red button on side of the lock housing.
 - you will hear two beeps.
 - The yellow indicator light on the keypad will be on at the same time.
2. Enter the code you want to use (3-8 digits) as a combination.
3. Confirm within 15 seconds by pressing the letter "A" or "B" on the keypad.
 - The safe "bleeps" twice and the yellow light will go off. Your personal code is now set.
4. With the safe door open, test that the new combination has been programmed.

TO OPEN THE SAFE

1. Enter your personal code followed by the letter "A" or "B".
 - you will hear a beep and the green light on the front of the safe will light up.
2. Turn the doorknob in a clockwise direction to open the door within 5 seconds.
 - If you, or an intruder uses the incorrect group of numbers, the safe will not open.
 - if the incorrect combination is used 3 times consecutively, you must wait for 20 seconds before trying again.
 - If the incorrect combination is selected a further 3 times, you must wait approximately 5 minutes before trying again.

BATTERY REPLACEMENT WARNING

If the batteries are low, the red indicator light on the keypad (in the middle of the number panel) will illuminate.

MANUAL OVERRIDE

- See "Opening the safe for the first time" on page 3.
