ORIGINAL INSTRUCTIONS

GC 05 25

INTRODUCTION

Thank you for purchasing this CLARKE product. Before attempting to use this product, please read this manual thoroughly and follow the instructions carefully. In doing so you will ensure the safety of yourself and that of others around you, and you can look forward to your purchase giving you long and satisfactory service.

DESIGN FEATURES

1. Handle
 2. Cooling Fins
 3. Thermo-electric Module
 4. Base
 5. Heat sensitive metal strip.
- This is a safety device to protect the motor from overheating if the surface temperature exceeds 250°C (482°F).

ENVIRONMENTAL PROTECTION

Through purchase of this product, the customer is taking on the obligation to deal with the WEEE in accordance with the WEEE regulations in relation to the treatment, recycling & recovery and environmentally sound disposal of the WEEE.

In effect, this means that this product must not be disposed of with general household waste. It must be disposed of according to the laws governing Waste Electrical and Electronic Equipment (WEEE) at a recognised disposal facility.

If disposing of this product or any damaged components, do not dispose of with general waste. This product contains valuable raw materials. Metal products should be taken to your local civic amenity site for recycling of metal products.

POSITIONING AND USE

WARNING: THE OPTIMUM OPERATING TEMPERATURE IS 80-250°C (176-482°F). NEVER USE AT OVER 350°C (662°F)

1. **DO NOT** position the fan close to the chimney flue.
 - The optimum operating temperatures stated are for reference and guidance only. They may vary in different environments as fans have been tested in controlled laboratory conditions.
2. We recommend the use of a suitable thermometer to monitor the temperature and avoid damage to the components due to overheating.
3. **NEVER** place the fan on an unprotected surface if the fan base is still hot.
4. **DO NOT** move the fan when in use unless in an emergency. In this case remember to wear gloves to protect against burns or injury from the rotating blades.
5. Keep loose items such as loose fabrics away from the fan when in use.
6. Ensure that children and pets are supervised around the stove and the stove fan.
 - The fan will start working when the sensor reaches 50°C. Thereafter, the fan will spin faster as the temperature increases and will slow down as it decreases. Once all the fuel has burnt the fan base will cool down along with the stove.

GUARANTEE

This product is guaranteed against faulty manufacture for a period of 12 months from the date of purchase. Please keep your receipt which will be required as proof of purchase.

This guarantee is invalid if the product is found to have been abused or tampered with in any way, or not used for the purpose for which it was intended.

Faulty goods should be returned to their place of purchase, no product can be returned to us without prior permission.

This guarantee does not effect your statutory rights.

DECLARATIONS OF CONFORMITY

Fitzwilliam Hall, Fitzwilliam Place, Dublin 2

DECLARATION OF CONFORMITY

This is an important document and should be retained.

We hereby declare that this product(s) complies with the following legislation:

2014/30/EU *Electromagnetic Compatibility Directive*
2011/65/EU *Restriction of Hazardous Substances (RoHS) Directive*

The following standards have been applied to the product(s):

EN 61000-3-3:2013+A1:2019, IEC 62321-4:2013+A1:2017, IEC 62321-5:2013, IEC 62321-7-2:2017,
EN IEC 61000-3-2:2019+A1:2021, EN IEC 55014-1:2021, EN IEC 55014-2:2021, IEC 62321-8:2017,
IEC 62321-6:2015

The technical documentation required to demonstrate that the product(s) meet(s) the requirement(s) of the aforementioned legislation has been compiled and is available for inspection by the relevant enforcement authorities.

The CE mark was first applied in: 2025

Product Description: Stove Fan
Model Number(s): CSF6B
Serial/Batch Number: Refer to product/packaging label
Date of Issue: 15/01/2025
