## MATERIALS DECLARATION

No parts of this product is made of materials that are known to cause skin irritation. However, materials that come into contact with the skin can cause allergic reactions to certain susceptible individuals.

---

# USING SAFETY SPECTACLES

---

## APPLICATION

These safety spectacles are designed for eye protection against moderate impact hazards but are not unbreakable and do not provide unlimited eye protection. They are designed to protect the user against eye injuries through impact of flying particles or droplets. The safety spectacles are not intended for welding use.

The safety spectacles have been designed for your personal safety and must be worn for the whole duration of exposure to hazards. You should leave the work area if dizziness or eye irritation occurs or if the safety spectacles become damaged.

## SAFETY WARNINGS

1. Do not modify or alter the safety spectacles in any way.
2. Pitted or scratched lenses reduce vision, seriously reduce protection and should be replaced immediately.
3. Materials that come into contact with the skin can cause allergic reactions to certain susceptible individuals.
4. If in doubt, check with supervisory personnel to ensure you have the correct level of protection relative to working conditions. If necessary consult relevant European Standards.
5. The clear lenses of these safety spectacles offer no protection against optical radiation given off during welding or cutting work.

## CLEANING, MAINTENANCE AND STORAGE

1. Do not use abrasive materials for cleaning the safety spectacles. Always clean either with optical cleaning solution, a cleaning solution very low in alcohol or in warm soapy water. Rinse and dry with a soft cloth.
2. Parts that come into contact with the skin of different users should be regularly disinfected.
3. It is recommended to store the spectacles in a clean, dry polythene bag when not in use. Store in a dry place sheltered from UV light, ideally in a protective case. Ideally, this should be between 5°C and 40°C.
4. If the lenses become damaged the spectacles must be replaced.
